Profile

B.Tech Computer Science and Engineering student at IIIT Dharwad interested in software and web development. Have built projects using React, JavaScript and Tailwind CSS, along with collaborative project experience using Git and GitHub. Familiar with backend fundamentals and databases, and currently improving my full-stack development skills. Seeking internship opportunities to gain practical experience and learn through real-world projects.

Education

Indian Institute of Information Technology, Dharwad Dharwad, India
B.Tech in Computer Science and Engineering
Currently pursuing third year

Technical Skills

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js (Basics)

Database: MySQL, MongoDB (Basics)

Programming: Python (Basics), C

Tools: Git, GitHub, VS Code, Vite

Currently Learning: TypeScript, Full-Stack Development

Projects

TaskFlow – Todo Application GitHub

- Built a productivity-focused todo application using React and Tailwind CSS.
- Used TypeScript and Vite during development.
- Deployed the application using Vercel.

FITVERSE – Fitness and Workout Management Platform GitHub

- Collaborated with a team to develop a fitness-related web application.
- Contributed to the exercise library, exercise details, equipment guides, and alternative equipment suggestions.
- Worked on exercise video previews and a 3D exercise visualizer.
- Used Git and GitHub for collaborative development.

Malaria Diagnosis using Explainable AI GitHub

- Implemented and extended a research-paper-based approach for malaria cell image classification using Xception.
- Applied Grad-CAM, LIME and SHAP to interpret model predictions.
- Worked with a dataset containing approximately 27,000 malaria cell images.

Additional Information

- Learning backend development through hands-on practice and web development coursework.
- Open to frontend and full-stack internship opportunities.
